## Work experience

04/2022 – PRESENT GDANSK, POLAND

### Software Developer Treehouse

I joined Treehouse as a Software Developer in 2022 on a full-time basis. My responsibilities include the following:

- Implementing website redesigns and updates using Rails .erb and React.
- Carrying out various bug fixes and new feature implementations in the backend.
- Collaborating with the operations team during updates and migrations to new versions of Rails or deployment platforms in AWS.
- Writing clean and maintainable code using Ruby on Rails best practices.
- Conducting code peer reviews on GitHub to ensure code quality and adherence to coding standards.
- Optimizing application SEO scores and overall page performance by optimizing database queries and caching strategies.
- Troubleshooting and debugging issues in production and development environments.

09/2021 – 03/2022 GDANSK, POLAND

### Frontend Web Developer Xenon Partners

I joined Xenon Partners in 2021, marking the beginning of my professional career. At Xenon Partners, I worked for its shared services IT teams across various portfolio companies, including Dreamfactory, Hostedgraphite, Packagecloud, and Teampassword.

During my time there, I was involved in several tasks, which included:

- Implementing website redesigns
- Updating and maintaining web pages
- Optimizing core web vitals and page performance
- Assisting in the implementation of new features and functionalities
- Conducting troubleshooting and bug fixing
- Collaborating with cross-functional teams, such as the UX/UI design team and optimization teams, to find the best solutions for improving conversions
